Are you a registered voter in the district: yes
How Long have you lived in the district?: since July 2015 -- 10 years
Briefly state why you want to serve on the board.: I'd like to see the water district serve the needs of everyone within the district equitably. It looks like the county would like to see population density increase within the water district boundaries, and it seems reasonable to expect that will happen. The board needs to plan for and manage future growth to make sure we continue to supply safe, reliable and affordable water for both private citizens and business within the district.
List any relevant experience, qualifications, or community involvement: I was a math teacher for 20 + years, I've been to more school board meetings than I can count. Served on the McKenzie Community Track board for several years, currently serve on the board of McKenzie Community Communications. I've prepared and administered budgets through most of my professional career.
